## Furniture Care & Cleaning Guide

# STAIN CHART

This chart contains our recommended cleaning methods of Sunbrella® fabric for some of the most common and toughest stains. You may also use Carbona Stain Devil cleaning products. Available from national retailers, Carbona provides 9 formulas made to get out different types of stains. Apply the number indicated for your stain.

Stain	Recommended Cleaning Solutions	Carbona Stain Devil Number
BEER	1/4 cup dishwashing liquid and 1/3 cup white vinegar per 1 gallon water, rinse thoroughly	8
BERRY	1/4 cup dishwashing liquid and 1/2 cup - 1 cup ammonia per 1 gallon water, rinse thoroughly	8
BIRD DROPPINGS	1/4 cup dishwashing liquid per 1 gallon water, or try Goo Gone Grease Cutter (a hand cleaner), Greased Lightning, or Clean Rite Purple Power (available at most major retailers), rinse thoroughly	
BLOOD (DRIED)	2 oz. dishwashing liquid and 4-8 oz. ammonia per 1 gallon water, rinse thoroughly	4
BUTTER	Volatile solvent (acetone) 100%, rinse thoroughly	5
CHARCOAL, PENCIL MARKS	Vacuum, then use 1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	3
CATSUP OR MUSTARD	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	2
CHEWING GUM	Volatile solvent (acetone) 100%, rinse thoroughly	1
CHOCOLATE	1/4 cup dishwashing liquid and 1/2 cup ammonia per 1 gallon water, rinse thoroughly	2
COFFEE	1/4 cup dishwashing liquid per 1 gallon water, white vinegar, volatile solvent (acetone 100%), rinse thoroughly	8
COLA	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	8
CRAYON	Paint remover (100%), oil or grease remover (mix as directed), rinse thoroughly	3
EGG (RAW)	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	4
GRAPE JUICE	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	8
GRAVY	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	2
GREASE (CAR)	Volatile solvent (acetone 100%), rinse thoroughly	5
INK (PERMANENT, INDIA, BALLPOINT)	Paint remover (100%), volatile solvent (acetone 100%), soap and water, rinse thoroughly	3
IRON RUST	Carbona™ Stain Devil #9, rinse thoroughly	9
LIPSTICK	Paint remover (100%), oil or grease remover (mix as directed), rinse thoroughly	6
MASCARA	Paint remover (100%), volatile solvent (acetone 100%), 1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	8
MILDEW	1/4 cup dishwashing liquid and 1 cup bleach per 1 gallon water, rinse thoroughly	4
MILK	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	8
NAIL POLISH	Volatile solvent (acetone 100%), rinse thoroughly	1
OIL	Volatile solvent (acetone 100%), rinse thoroughly	5
ORANGE DRINK	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	8
PAINT (LATEX) WET	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	1
PAINT (LATEX) DRIED	Paint remover (100%), oil or grease remover (mix as directed), rinse thoroughly	1
PAINT (OIL OR LACQUER)	Paint remover (100%), oil or grease remover (mix as directed), rinse thoroughly	5
SHOE POLISH (LIQUID)	Volatile solvent (acetone 100%), rinse thoroughly	7
SHOE POLISH (WAX)	Apply heated iron over towel, volatile solvent (acetone 100%), rinse thoroughly	1
SUNTAN LOTION	Pine oil detergent (mix as directed), rinse thoroughly	5
TEA	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	8
TOMATO JUICE	1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	2
TREE SAP	Turpentine (100%), 1/4 cup dishwashing liquid per 1 gallon water, rinse thoroughly	7
URINE	1/4 cup dishwashing liquid and 1/3 cup white vinegar per 1 gallon water, rinse thoroughly	8
VOMIT	1/4 cup dishwashing liquid and 1/3 cup white vinegar per 1 gallon water, rinse thoroughly	8
FOOD COLOR	1/4 cup dishwashing liquid and 1/3 cup white vinegar per 1 gallon water, rinse thoroughly	6
WAX (CANDLE)	Apply heated iron over towel, volatile solvent (acetone 100%), rinse thoroughly	1
WINE	1/4 cup dishwashing liquid, 1/3 cup white vinegar and 1/2 cup - 1 cup ammonia per 1 gallon water, rinse thoroughly	8

# Sunbrella® Sling Care & Cleaning

## For Routine Maintenance and Cleaning...

One of the best ways to keep Sunbrella Sling fabrics looking good and to delay the need for deep cleaning is to rinse regularly with clear water to help prevent dirt from becoming deeply embedded in the fabric. Simply brush away loose dirt, rinse, and clean with a mild, lukewarm soapy solution. Rinse thoroughly and allow to air-dry.

### Try this next... With a new spill or stain on your Sunbrella Sling fabric.

- Rinse with clean water.
- Prepare a solution of 1/4 cup mild soap (Dawn or Woolite) per gallon of luke warm water.
- Use a soft bristle brush to clean the fabric.
- Rinse thoroughly to remove all soap residue and allow fabric to air dry.
- Repeat as necessary.

## For All Mold and Mildew Stains...

Sunbrella fabrics do not promote mildew growth, however, mildew may grow on dirt and other foreign substances if not removed from the fabric.

### To remove mold and mildew:

- Prepare a solution of 1 cup of bleach and 1/4 cup mild soap per gallon of water.
- Spray on entire area and allow the solution to sit for 15 minutes.  
Continue to spray area if it begins to dry too quickly.
- Clean entire surface area with a sponge, clean towel or very soft bristle brush.
- Rinse thoroughly to remove all soap residue.
- Air dry. For severe mold/mildew growth, bleach quantities may be increased.

# Sunbrella® Upholstery Care & Cleaning

One of the best ways to keep Sunbrella fabrics looking good is to brush off dirt before it becomes embedded in the fabrics and wipe up spills or clean soon after a stain occurs. The quicker you clean spills and stains, the easier they can be to remove.

### Try this first... With a new spill or stain on your Sunbrella fabric.

- Blot (don't rub) liquid spills with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove with a straight edge.
- Spray on a mild cleaning solution of soap (such as Dawn or Woolite) and water.
- Rinse the fabric thoroughly to remove all soap residue.
- Air dry.

### Try this next... If your first try doesn't get the stain completely out.

Though Sunbrella fabrics can be used both outdoors and in, your cleaning methods should differ slightly indoors and out because of the fabrication and manufacturing of the furniture. We recommend using the appropriate cleaning instructions for your application.

## Helpful Hints

Avoid scrubbing, hard bristle brushes or any other abrasive cleaning method.

Sunbrella should only be allowed to air dry.

Protect the area around your Sunbrella fabric when using bleach or other chemical solvents that may discolor non-Sunbrella fabrics. Always rinse Sunbrella thoroughly.

Bleach can have harmful effects on the natural environment around you. Please follow all safety and environmental precautions according to the bleach label.

## Helpful Hints

Avoid scrubbing, hard bristle brushes or any other abrasive cleaning method.

Sunbrella should only be allowed to air dry.

Protect the area around your Sunbrella fabric when using bleach or other chemical solvents that may discolor non-Sunbrella fabrics. Always rinse Sunbrella thoroughly.

Bleach can have harmful effects on the natural environment around you. Please follow all safety and environmental precautions according to the bleach label.

If fabric has some wrinkling, use an iron on the synthetic setting. As iron temperatures may vary, first test a small inconspicuous area before ironing the entire piece.

DO NOT use a steamer or an iron set to the steam setting.

# Sunbrella® Upholstery Care & Cleaning

## Outdoor Upholstery - Cleaning Removable Fabric

### Hand Washing

Soak fabric in a solution of ¼ cup mild soap per gallon of lukewarm water. Use a sponge or very soft bristle brush to lightly agitate the stain. Then rinse thoroughly to remove all soap residue, and allow fabric to air dry.

### Machine Washing

Some removable casings can be washed in the washing machine, however consult the furniture manufacturer before removing the casing as cushion construction may vary. To wash, first close all zippers. Machine wash in cold water on the delicate cycle with normal amounts of mild laundry detergent. For severe mold or mildew, add 1 cup of bleach. Allow fabric to air dry.

### Cleaning Non-Removable Fabric

Prepare a solution of ¼ cup mild soap per gallon of lukewarm water. Use a soft bristle brush to clean, allowing the cleaning solution to soak into the fabric. Rinse thoroughly to remove all soap residue and allow fabric to air dry.

### Mold and Mildew Stains

Sunbrella fabrics do not promote mildew growth, however, mildew may grow on dirt and other foreign substances if not removed from the fabric.

To remove mold or mildew:

- Prepare a solution of 1 cup of bleach and ¼ cup mild soap per gallon of water.
- Spray on entire area and allow to soak into the fabric for 15 minutes.
- Clean entire surface area with a sponge, clean towel or very soft bristle brush.
- Rinse thoroughly to remove all soap residue.
- Air dry.

For severe mold/mildew growth, bleach quantities may be increased. It is best to clean the entire surface area of the fabric to avoid water rings and stains.

## Outdoor Upholstery - Cleaning Non-Removable Fabric

- Apply a light mist of mild soap and water using a spray bottle.
- Work the solution into the stain by lightly agitating the entire surface area of the fabric, moving from seam to seam, with a sponge or very soft bristle brush. Avoid scrubbing, and do not use a hard bristled brush or anything that will abrade the fabric.
- Rinse the entire fabric thoroughly to remove all soap residue.
- Blot excess moisture with a clean, soft towel or sponge.
- Blot or wet-vacuum excess water from the entire surface area of the fabric, moving from seam to seam.
- Air dry. Repeat rinsing and blotting until all soap residue is removed.

### Professional Cleaners

Inquire about a firm's experience working with Sunbrella fabrics and knowledge of cleaning and re-treatment requirements.

### Machine Washing

Some removable casings can be washed in the washing machine, however consult the furniture manufacturer before removing the casing as cushion construction may vary. To wash, first close all zippers. Machine wash in cold water on the delicate cycle with normal amounts of mild laundry detergent. Allow fabric to air dry.

### Oil-Based Stains

Immediately apply an absorbent such as corn starch directly on the oil-based stain. Let sit for 10 minutes and remove the excess using a straight edge or ruler. This helps remove the stain and prevents it from being pressed into the fabric. Then proceed with the cleaning process.

### Seam-To-Seam Cleaning

When cleaning upholstered pieces, clean the entire surface area of the fabric, from seam to seam, instead of rubbing the fabric in a circular motion on the stain. This method, along with an extractor, may be required in order to avoid water rings and stains.

## Retreating Sunbrella Fabrics

Sunbrella fabrics are treated with a proprietary water and stain repellent finish that is designed to last for several years, but may require replenishing after a thorough cleaning. Glen Raven® recommends 303® Fabric Guard™. For more information, visit [www.303products.com](http://www.303products.com).

### Applying 303 Fabric Guard:

- Clean Sunbrella fabric, using one of the cleaning methods.
- Allow Sunbrella to completely air dry.
- Apply 303 Fabric Guard in a well-ventilated area following instructions on the container.
- Apply 303 in a thin, even coat and allow fabric to dry completely.
- Apply a second thin, even coating of 303. (Two light coatings are more effective in restoring fabric water resistance than a single heavy coating.)

# Patio Frames Preventative Care & Maintenance

	HDPE WICKER WEAVE	ACRYLIC POLY/OLEFIN, PVC/OLEFIN, PVC/ACRYLIC	ALUMINUM FRAMES & TOPS	VINYL STRAPS
<b>Cleaning and Maintenance</b>	For best results, clean regularly with mild detergent and warm water. Cleaning will help prevent mildew by washing out dirt particles that may become trapped. Shake out excess moisture after rinsing and allow to dry thoroughly before storing.	Spot wash by sponging briskly with a mild soap in lukewarm water (do not exceed 100°F). Thoroughly rinse with clean water to remove soap. Allow to air dry completely before storing.	Clean with a solution of warm water and mild soap. Use a fine automotive wax to maintain gloss on non-textured finishes.	Clean with mild laundry detergent and warm water. Strap contains an effective fungicide and Ultra Violet stabilizers.
<b>Removing Stains, Mildew, Etc.</b>	Clean with a solution of warm water, mild laundry detergent, and chlorine bleach (no more than 1/4 cup per three gallons of water). Never use a solvent-type solution.	Same as above.	Woodard's multi-step finishing process results in a stain-resistant finish. Severe stains may require light sanding and touch-up painting.	To remove scuff marks on vinyl straps, apply toothpaste or gentle abrasive to a clean, dry cloth and rub gently. To remove mildew, use a solution of warm water, mild laundry detergent, and chlorine bleach (no more than 1/4 cup per three gallons of water). Never use a solvent-type solution.
<b>Insect Repellents and Suntan Lotions</b>	Not recommended. Insect repellents and suntan lotions can reduce the life of HDPE, accelerate fading and stain fabrics. To avoid damage, wipe clean with mild laundry detergent and warm water.	Not recommended. Insect repellents and suntan lotions can reduce the life of fabric, accelerate fading and stain fabrics. To avoid damage, wipe clean with mild laundry detergent and warm water. Do not use bleach or harsh detergents under any circumstances.	The finish on Woodard furniture is formulated and baked on to make it highly resistant to repellents and lotions. However, to avoid discoloration, clean the frame as soon as possible after the exposure.	Not recommended. Insect repellents can reduce the life of vinyl plastic, accelerate fading and stain fabrics. To avoid damage, wipe clean with mild laundry detergent and warm water.

## Reclaimed Driftwood Teak

### Natural Teak Weathering Process

Teak wood furniture, when exposed to the outdoors, will form a handsome silver-gray patina. This process will take approximately nine months, depending on the amount of sunlight and rain exposure.

During the weathering process you may notice "checking" or small cracks that appear in the wood. This is perfectly natural, as wood expands and contracts slightly when left outdoors. Checking is cosmetic only and in no way affects the structural integrity of the furniture. Checking is not covered by warranty.

A lifting of the grain may occur on the top edges of the arms and legs. The grain will return to its original smooth finish after the initial weathering process. To aid this process, simply clean the furniture with a soft bristle brush or sponge as indicated in our cleaning instructions. Water spots or other discoloration may also occur during the weathering process. These will even out with time and with periodic cleaning, the furniture will achieve a uniform silver-gray.

### How can I prevent my teak from turning silver-gray if I want to maintain the golden-brown color?

If you prefer to keep your teak wood a golden-brown color, we recommend using Teak Protector. This is a purely cosmetic application. The product will maintain the golden-brown color for approximately one season and can be reapplied as needed. You should wait two weeks before applying the protector to newly assembled furniture. We strongly recommend you try it on a small area of your furniture first -- such as the back of a leg or the underside of a chair -- to ensure you like the results before applying it to the entire piece.

## Natural Teak

### Natural Teak Care and Maintenance

#### How often must I apply the Teak Protector product?

Teak Protector should be applied seasonally, or when you begin to see the teak changing color. Please note that using Teak Protector is not required and is a cosmetic application only. The only function of the Teak Protector is to prevent the teak from forming a silver-gray patina during the weathering process.

#### How should I clean my teak furniture?

The only maintenance necessary for your furniture is periodic cleaning. First, hose down the furniture with fresh water. Avoid spraying the teak with a high-pressure hose, as high pressure can erode the surface of the timber. Next, scrub the wet furniture using a soft bristle brush and a solution of 2/3 cup laundry detergent and 1/4 cup bleach in 1 gallon of warm water. When finished, rinse the entire piece with more fresh water to remove any remaining cleaning solution. This procedure is sufficient for general cleaning. For more difficult stains we recommend using Teak Cleaner. This will remove the silver-gray patina and restore the furniture to a golden-brown color.

#### What are the black dots on my teak furniture?

Although teak wood itself will not mildew, mildew sometimes grows on dirt and other foreign substances that are not removed from the wood. This occurs more commonly in warm, humid climates. If this happens, follow the standard cleaning instructions immediately. Do not let the mildew remain on the wood for too long. Doing so could cause stains on the wood that are difficult to remove.

#### How can I prevent mildew on my teak furniture?

We recommend periodically cleaning the surface of your teak to remove environmental deposits that could promote mildew growth. Teak Shield has also been shown to impede mildew growth.
